

# BUILD FOR EDUCATION!

## LANDSCAPE DESIGN FOR AN ENVIRONMENTAL EDUCATION FARM

### PROJECT LOCATION

Mui Wo & Peng  
Chau, Hong Kong

### COMMUNITY PARTNER

The Hong Kong  
Outlying Islands  
Women's Association  
(OIWA)

### KEY AREAS

Organic Farm, Environmental  
Education Site, Landscape  
Design, Water System  
Improvement, Recycling  
Materials, Sustainable Design,  
On Hand Building Work

Interested faculty members are  
welcome to contact Dr. Dennis  
Cheung, Lecturer of GHELC  
Phone: 2219 4828  
Email: [denniskk@hku.hk](mailto:denniskk@hku.hk)  
Website: <http://ghelc.hku.hk>

### Our Social Mission:

To improve the physical conditions and functions of two environmental education farms, where treat food waste collected from the island communities, store the compost produced, test for farming and conduct education activities.

### Student Learning:

Students will learn to design and do real landscape works on site using recycling materials and sustainable design idea.

### Project Opportunities:

- Do site visits and observation.
- Conduct site studies.
- Communicate with local stakeholders to engage their opinions.
- Design an initial design plan for the improvement works for the farm(s).
- Experience implementing some parts of the design works on site.
